● **Cycle Life**

Standard charge mode, keep for 30min;Standard discharge mode:>500cycle,70%

● **Standard Charge Model**

Charge to 42V with constant current ,then charge with constant voltage till current less than 300mA.

Use special charger:CC+CV,2A,42V/300mA

● **Options**

Standard BMS: overcharge protection, overdischarge protection ,overcurrent protection balance&high temperature protection

Smart BMS,Standard BMS functions,scale,communication,sleep,encode,tailights blinking,5V USB output

● **Certificate**

FCC,CE,MSDS
